VCL WINGS

AHW Series

144 AHW

*Shown with optional marker rod and MTO reflective warning markers

The Viking AHW (All Hydraulic Wing) is more than a patrol wing. The superior curved moldboard lifts and throws snow. You handle it only once. It allows you to high wing or shelve to a height of 3 feet. The extension cylinder pushes the wing out, reaching some of winter's highest banks. On the road the extension cylinder changes the clearing path from 5 feet to 7 feet instantly. There are no cables or pulleys front or back to cause you problems and the full trip mechanism will protect your Viking wing should you hit an obstacle. When you remove the AHW, your payload is increased as there is no tower remaining on the truck.

Model	Wing Length	Cutting Edge Punch	Cutting Edge Length	Weight
120 AHW	11'	8"	10'	700 lbs
132 AHW	12'	8"	11'	820 lbs
144 AHW	13'	8"	12'	975 lbs

Standard Features:

- telescopic brace arm
- painted black

Options:

- Cutting edge
- shoes
- marker rods
- MTO reflective warning marker
- parking leg
