# RocStar ARX Specifications

Body Length	Side Height	Front Height	Tail Height	Side Capacity	End Capacity	Hoist Model	Cylinder Stroke	Hoist Weight	Body Weight
15'	53"	61"	61"	17.1	19.1	HPT63-126	126"	805 lbs	4590 lbs
16'	53"	61"	61"	18.2	20.3	HPT63-138	138"	850 lbs	4860 lbs
17'	53"	67 1/2"	61"	19.2	21.8	HPT63-162	162"	905 lbs	5180 lbs
18'	53"	67 1/2"	61"	20.3	23.2	HPT63-162	162"	905 lbs	5450 lbs

\*Capacities are estimated in cubic yards. Specifications are subject to change without notice.

The RocStar ARX is the latest innovation introduced to the Wheeler product line, maintaining the Western style of the RocStar with its cross-memberless design. The "X" stands for extreme. This elliptical dump body was designed to handle the largest of loads in the most extreme conditions.

The "X" also stands for exceptional. AR450 gives RocStar ARX the industry's highest tensile steel applicable to a heavy duty body. A horizontal lap joint (pictured left) adds extra support in a crucial area on the body where the floor and the sides come together....and all welds on the body are continuous seam-welds to assure exceptional strength.

"X" is for the extra space provided by this new design. The RocStar ARX comes with tall 53" sides allowing for more capacity than its competitors. An optional Mailhot head-lift trunnion hoist minimizes or eliminates the doghouse in front, maximizing the capacity inside the bed.

The "X" is also for excellent clean-out. No cross-splicing or welds of any kind are found on the floor of our beds, enabling material to empty freely without hanging up. The RocStar ARX also comes with a hi-lift tailgate option allowing for a smoother discharge of larger loads.

"X" is for extended life. The tailgate's cylinders are totally encased in the steel rear corner posts, avoiding possible damage from the outside. The cab is protected by full length fenders, which are a standard feature incorporated with steps and handles. The dump body steel is phosphatized before being primed with a two-part epoxy primer to insure a long lasting appearance to its paint job and making the RocStar ARX, not just a durable, but great looking dump body for the serious heavy duty hauler.

\*Optional Hi-Lift Tailgate

## Standard Features

- 1/4" AR450 Floor
- 3/16" AR450 Sides, Front & Tailgate
- 86" Inside Width
- 96" Outside Width
- Full Length Fenders
- Debris Shedding Top Rail
- Air Trip Tailgate w/ Manual Backup
- Spreader Chain Storage Boxes
- Rubber Mounted Stop/Turn Tail Lights
- Wheeler Telescopic Hoist
- Tapered Upright Oil Reservoir
- Direct Mount, Cast Iron, Gear Type

## Options

- External or Internal Mailhot Hoist Pkg
- Air Operated Hi-Lift Tailgate
- Cab Shield
- Asphalt Lip
